

Restore Your Quality of Life

Topricin - Natural Pain Relief

WHY IT'S COOL:

Topricin's family of products is all-natural and includes the Pain Relief and Healing Cream, Foot Therapy Cream and the Junior formula which is perfect for kids.

Topricin® Pain Relief and Healing Cream provides pain relief by improving circulation and attracting and stimulating the body's healing chemistries at the site of pain. Topricin delivers reliable pain relief, improving quality-of-life, and providing a strong adjunct to professional care with no side effects or contraindications. (Think other rub-on type creams without the smell!)

Topricin® Junior Children's Pain Relief and Healing Cream is specially formulated for kids. Pediatrician recommended this paraben free, patent pending formula treats pain associated with a wide range of common children's injuries. It is perfect for muscle sprains and strains, eczema, back, heel and knee pain, and overall growing pains.

Topricin® Foot Therapy Cream is specially formulated to effectively treat foot and ankle pain. It is perfect for common sports injuries such as plantar fasciitis, achilles tendonitis, strains, sprains, leg cramps, and impact injuries and bruising.

It is effective for heel pain, gouty arthritis, peripheral neuropathic pain and neuroma. Offers soothing treatment for swelling and soreness and effectively treats skin conditions of the feet.

By stimulating the body's desire to heal the damage that is causing the pain, Topricin Foot Therapy Cream drains the toxins and fluids that build up in an injured area to improve blood flow to the injured tissue. Made to penetrate the skin much like a moisturizer, Topricin Foot Therapy Cream is fast absorbing and paraben free.
