Topricin® Testimonials

“Some of my patients...swear by the benefits of a homeopathic cream called Topricin.” –Andrew Weil, MD

“I’m a massage therapist and last summer I came across some samples of Topricin®. Although I have always believed in natural remedies there is a skeptic inside of me, but I was in excruciating pain and desperate. I applied the Topricin according to the instructions and then before bed. When I woke up the next day I was 100% better. WOW! Since then, I have turned many others on to Topricin because it works! I’m so thankful for your product—no heat, no cold, no stimulus, no smell, just 100% real results!”
--Cindy S., MT

“For the past 12 years I have suffered with fibromyalgia, with very little reprieve from the pain. A few months ago while watching the Rachael Rae show I saw Topricin® and the wonderful things they were saying and immediately ordered some--I’ve tried everything there is on the market and nothing has worked. I was so excited the day it arrived, and immediately rubbed it on my hands, knees, feet, wrists, elbows, and shoulders. Within 10 minutes the throbbing stopped--I could not believe it! This cream is like a miracle, I am 62 years of age and now feel that life is worth living.” --Patricia M.

“I use Topricin® Junior on my two highly active children on a regular basis. From bee stings to bumps and bruises they acquire while skiing, it is the one thing I can count on to begin the healing process. Thank you for providing such a wonderful, safe, and truly effective product for my little ones.” --Steve C.

“I am an avid cyclist, and have problem knees. They are bone-on-bone due to wear and tear and surgeries. I use Topricin® on them at night when they are achy and it has helped tremendously. Last spring I did a 100 mile Tour De Palm Springs! I always get a sore neck, shoulders, and lower back, so I put some Topricin on them and don’t get that nagging, stinging pain.” --Donna B.

“I have seen a number of topical pain relief products and it is my opinion that Topricin® represents the very best natural approach to reducing pain and inflammation for golfers or anyone who wants to stay active.”

--David Leadbetter, Founder, David Leadbetter Golf Academy

“As a professional therapist with a highly specialized water and land sports medicine practice, I am very selective in the products I use. In my opinion Topricin® is the best natural medicine in the homeopathic category and superior to all other topical and oral pain medication. Many of my clients include Olympic athletes, professional players in baseball, football, tennis, world renowned dancers, premier figure skaters and marathon runners. They are all delighted with Topricin, and the benefits it provides.” --Igor Burdenko, Ph.D., Founder/President, The Burdenko Water & Sports Therapy Institute

“I am absolutely amazed by Topricin®. My wife was prescribed it by her podiatrist for an ankle injury. She introduced me to it when I returned from an eight mile hike up and down the rocky Appalachian Trail. Thirty seconds after I applied it the pain subsided and I was able to sleep. My first response was “This is a miracle medicine” and started telling everyone I knew about it. It’s made a lot of people pain free and very happy!” --Richard G.

“My son Daniel was severely injured in the war in Iraq and bedridden with traumatic brain injury. Every day, after baths, I applied Topricin® to his body. The doctors were amazed that his skin was so healthy and that it helped to prevent bed sores. Daniel survived only 2-1/2 years, but during that time I was constantly by his side, doing everything in my power to show my love and provide the best of care. I thank Topricin for playing a big role in maintaining his comfort and well being.” --Mary T.
