Founded in 1994 and headquartered in Rhinebeck, NY, Topical BioMedics, Inc., is the research and development leader in topical regulated natural medicines for pain relief. The company's flagship product, Topricin® Pain Relief and Healing Cream, was introduced in 1994 and is now a leading natural therapeutic brand. All Topricin products are FDA-regulated over-the-counter medicines. Doctors and pharmacists can find more information about Topricin in the 2010 edition of the Physicians' Desk Reference (PDR). The product brings together eleven homeopathic medicines that work synergistically to relieve pain associated with a wide range of painful ailments. The Topical BioMedics' family of products includes Topricin®, Topricin® Foot Therapy, and Topricin® Junior for children, introduced in May 2009 to address the safety issues and concerns of parents and doctors in the pediatric pain relief category.
