## Topricin Products Net Parents' Organization Seal of Approval

Topical BioMedics Inc, Rhinebeck, NY, reports that [Topricin](#)® pain relief and healing cream and Topricin® Junior for children have been awarded the Parent Tested, Parent Approved (PTPA™) Winner's Seal of Approval.

[PTPA Media](#) is a large parent community in North American, comprising more than 40,000 volunteer parent testers. Independent parent volunteers evaluate the products in their own homes.

"At PTPA Media, we are proud to play a role in certifying innovative new products that families can trust," says Sharon Vinderine, president and founder of PTPA Media Inc. "It's win-win. By improving communication between manufacturers and consumers, we are helping companies serve their market better, and helping families identify products that have been tested and recommended by their peers."

Topical BioMedics specializes in research and development in topical regulated homeopathic biomedicines for pain relief.

The Topical BioMedics' family of products includes classic Topricin; Topricin Junior, formulated especially for children's pain issues; and Topricin Foot Therapy cream. All Topricin products are FDA-regulated, over-the-counter medicines, with no side effects and no odor, grease, parabens, petroleum, or chemical irritants.

More information can be found in the 2010 edition of the Physicians' Desk Reference (PDR).
